PT2347

Contact Person:	Larry Lee
Url:	http://www.taiwantrade.com.tw/22050539
Key Features:	<p>The PT2347 is an audio processor designed for versatile application, includes 3 stereo input selector with adjustable gain, master volume control with low frequency loudness compensation, individual output attenuator and tone control. It is a good solution for the car audio signal processing. In car audio applications, maximum power output of the audio set is measurement on saturated condition, it may not achieve the goal if power amplifier does not have enough gain, therefore, the PT2347 provides extra +10dB voltage gain in final output stage, it is easy to drive the power amplifier into saturated power and eliminates external gain OPAMP. FEATURES</p> <ul style="list-style-type: none">• Controlled by I2C interface• Direct replace the PT2313 with +10 dB output gain• 3 stereo inputs with gain selection, range from 0 dB to +11.25 dB in 3.75 dB/step• Master volume from 0 dB to -78.75 dB in 1.25 dB/step• Speaker attenuator for balance and fader, range from +10 dB to -27.5 dB in 1.25 dB/step• Each output can be muted in...
Primary Export Products:	Audio, VFD, LCD, LED, USB, Lighting, Ballast, Encoder, Decoder, Eemote Controller, Motor Driver, GPS Solution, RF IC, ASIC IC

► **Company Name:**

TAI-SAW TECHNOLOGY
CO., LTD.

► **Model No:**

Contact Person: Yian Chen

Url: <http://www.taiwantrade.com.tw/16264983>

Key Features: Founded in 1997, TST's goal is to become the leading manufacturing, design and service provider for high performance communication components. The former Motorola employees who founded TST applied their extensive experiences in related device design, manufacturing and processing development to realize these goals. TST is now recognized as the leading SAW (surface acoustic wave) device supplier in Taiwan, as well as the key OEM/ODM supplier of SAW device in the world. While firmly committed to its core strength in the manufacturing and design of the SAW devices, since early 2001 TST has expanded the span of its products and operations to cover BAW (Bulk Acoustic Wave) devices and modules (Xtal, XO, VCO, VCTCXO... etc). The strategy has proven to be a successful one. With the help of its outstanding technical and management team, TST is now being recognized and earned a reputation for being a value-added overall solution provider of communication components to its partners. In anticipati...

► **Company Name:**

PRO CHANNEL

ELECTRONICS LIMITED

► **Model No:**

PQM-2000

Contact Person: Corinna Chang

Url: <http://www.taiwantrade.com.tw/prochannel>

Key Features:

- Operates in DVB - ASI signal input and a digital QAM signal output in 16/32/64/128 or 256 QAM mode
- Front panel LCD for monitoring, data display and setup.
- High MER (Modulation Error Rate) ensures a low bit error rate
- SAW Filtered IF Out/In Loop - RF Modulation output - Minimum 115 dB Gain Output.
- Double PLL synthesized channel Control - Output Frequency 47-862MHz agility
- Low Out-Of-Band Noise and High VSB attenuation- Output Level Adjustable by a 15dB range
- Switching Power Supply Built-In.
- Available to control multiple and daisy chain QAM modulators with our Monitoring & Control Software.

Primary Export Products: Cable TV Equipment

Surge Protected Directional Coupler

Company Name:

Taiwan Cable Connection
Corp.

Model No:

DC8HQS, DC12HQS,
DC16HQS

Contact Person: Jennifer Lin

Url: <http://www.taiwantrade.com.tw/tcc>

Key Features:

1. 6KV surge protection on all ports
2. Incorporates X1 bypass capacitor compliant to IEC284-1411 and UL1414 standards.
3. Surge components are approved to UL1414, UL1449, VDE-CECC42000A1, IECQ-QC420102/US0001.
4. A360 aluminum alloy housing with weather-resistant protective powder coating
5. All ports meet IEEE587 C62.41-1991 Cat B3 (6KV/3KA) combination wave test standard and Cat A3 (6KV/200A) ring wave test standard.
6. Surge withstand test procedure as per SCTE 81 2003 standard
9. Power passing: 15A, 60/90VAC, 60Hz
10. Hum modulation test via time domain method at 90VAC/10A, 55dB
11. 100% leakage test
12. 100% 90VAC power on test
13. RFI<-110dB

Primary Export Products: CATV and Satellite products, HighPass
Filters, Attenuators, Splitters/Taps, Baluns, Connectors, Equalizers, Diplexers

**Atrillion EMI Killer for Cell phone
Electromagnetic Wave shield**

► **Company Name:**

Atrillion International Corp

► **Model No:**

EMI KILLER

Contact Person: monies-lai

Url: <http://www.taiwantrade.com.tw/atrillion>

Key Features: EMI Killer Patent:USA-US6989487,Japan-JP3098575,Taiwan – 174642,China – ZL022573267.Electromagnetic Wave Destroy Your DNA From Cellphone Ring In Seconds!

Electromagnetic waves from cell phones may cause long-term effects harmful to a person's health. Soft tissues in the human body, such as the brain, waist and chest, are extremely susceptible to the effects of magnetic waves. EMI Killer for Cell Phone Electromagnetic Wave Shield(Black Film very thin less than 0.2mm and can be easy stick on inside of cell phone or outside cover.) material can block not only the electric waves and, more importantly, the more dangerous magnetic waves for over 99.99% emitting from a cell phone. The Public Standard Bureau of Singapore and the National Industrial Technology Research Institute of Taiwan have verified the shielding effectiveness of EMI Killer material. The Test Results as follows: Isolate 70dB = Isolate 99.99999%900MHZ – 75.61dB = 99.99999%1800MHZ – 73.63dB = 99.99999%1900MHZ – 75.06dB = 99.99999%...

HDMI v1.3 Switch

► **Company Name:**

GOOD WAY

TECHNOLOGY CO., LTD.

► **Model No:**

VS4030

Contact Person:	Joan Hsiao
Url:	http://www.taiwantrade.com.tw/goodwaytech
Key Features:	<p>This HDMI Switch allows up to three HDMI sources from any kind of audio/video device, such as DVD player, DTV set-top box, computer or game station to share a single high definition display. Its HDMI 1.3 compliance offers higher data rate, extensive single-link bandwidth, deeper color bits and more HD audio formats. Furthermore, these benefits also offer users the capability of meeting the demands of future HDMI devices. The device is perfect for home theater system with multiple HDMI devices as well as for commercial showcase. Need no more HD displays now, simply connect the sources and display all together to the switch, power on all the devices and then you can select which source you want to view on the display by pushing the buttons or using the provided IR remote controller.</p>
Primary Export Products:	Computer Peripherals, Card Reader, Enclosure, KVM Switch, Share Switch, Hub, Docking Station, Add-in Card, USB Link Adapter, Video Splitter, Cable Accessory

VDE150A

Contact Person:	Jackie Liao	(150m)/VDE300A(150m)
Url:	http://www.taiwantrade.com.tw/12936172	
Key Features:	<p>The CAT5 VGA/DATA Extender (VDE) is a low cost, one-to-one, real time VGA and RS232 signal long distance transmitter. Using standard CAT5 UTP/STP cable you can broadcast high-resolution video images (1920x1200 @60Hz) and control your display device (RS-232 T, R) from as far away as 300m/1000ft from your host computer. An extremely handy device, use the VDE to broadcast video images to a remote plasma/LCD monitor or touch screen and control remotely at the same time. Now you can broadcast all your critical information directly to the public in department sotres, banks, business centers, hotels, restaurant, office or training environment, industrial locations and production lines. The VDE is also ideal for sending video images to a ceiling or other projector and controlling it from your desk. As a bonus, the system allows installing an additional monitor at the local unit so you can see what you are broadcasting even when the display is located outside your immediate environment. Feat...</p>
